

A green and black robotic lawn mower is shown on a well-maintained green lawn. The mower is positioned in the lower-left quadrant of the image, facing towards the right. The background features a dense green hedge and a large, light-colored ceramic pot. The overall scene is bright and sunny, suggesting a clear day.

AUTO-MOW IS HERE TO CHANGE THE ROBOT MOWER INDUSTRY

FREE SHIPPING

Free shipping is rare in the B2B market, but Auto-Mow wants to offer all our dealers free shipping. Our Free shipping will save you 8-15% compared to the product's total price.

Auto-Mow offers Free shipping for all orders above 1.500 Euro.

14 DAYS CREDIT

We have full confidence in our products. We give all dealers 2 weeks credit, so you can secure stock before you have to pay for it.

Auto-Mow will make a credit validation before we approve your account.

24/7 ACCOUNT MANAGER

We know that your time is valuable, and that trust and effective cooperation comes from good relationships. Therefore, we offer all our Auto-Mow dealers a personal account manager. One person who knows your needs and specializes in your market.

All your calls and E-mails to our account managers will be responded to within 24 hours during working days – and direct calls to our office will be answered within opening hours.

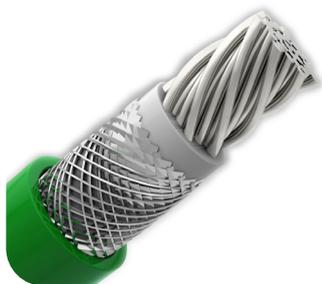

PRICE MATCH

No matter the price you have today, Auto-Mow will match it!

If you find a better price after the purchase, Auto-Mow will reimburse the difference.

Our Cable selection

PREMIUM SAFETY CABLE 3,8MM

The premium cable with 3-layer protection includes Rodent Repellent in the outer layer and has a strong metal mesh. The best cable for professional installers who prefer to use time on installations instead of repairs.

Inner core: 1,5mm²
Cable size: 3,8mm

STANDARD CABLE 3,4MM

The 3,4mm cable is suitable for all cable machines. A great, flexible standard cable for professional installers. For all robot mower installations.

Inner core: 1,5mm²
Cable size: 3,4mm

BASIC CABLE 2,7MM

The 2,7mm cable is ideal for installations above ground. A good basic cable for all robot mower installations.

Inner core: 1,5mm²
Cable size: 2,7mm

 Product video on www.auto-mow.com

Ø 3,8mm

Metal protection
High signal strength

First 3-layer safety cable with infused repellent. Auto-Mow offers a 10-year guarantee against animal bites and most garden tools!

A standard cable is typically broken 3,2 times within the robot mower's lifespan, which causes installers and consumers problems that often result in warranty issues, that the installer must pay.

Our Premium Safety Cable comes with an infused repellent, making sure animals only bite the cable once. Furthermore, it has 100% stronger metal mesh protection than our 3,6mm Safety Cable.

Suitable for any installation.

Premium Safety Cable

3,8mm

WITH AUTO-MOW'S PREMIUM SAFETY CABLE, YOUR NUMBER OF REPAIRS WILL BE NEXT TO NONE!

FEATURES:

- Rodent repellent
- Complicated installations
- 100% stronger mesh than on the 3,6mm Safety Cable
- 10-year repair guarantee
- Professional installation cable

3,8mm, Green, 800m SKU: 21333564

150m | 250m | 500m | 800m

Premium Safety Cable 3,8mm

3-layer safety cable with metal protection and infused repellent. Longer lifespan and better performance.

Our premium safety cable comes with an infused repellent, making sure animals only bite once and a 100% stronger metal mesh protection than our 3,6mm safety cable.

- Rodent repellent + 3-layer protection
- 100% stronger mesh than the 3,6mm
- 10-year guarantee
- Professional installation cable
- Complicated installations
- 3,8mm thickness includes: our superior protection and a more stable insulation of plastic

500m | 800m

Premium Safety Cable 3,8mm

3-layer safety cable with metal protection and infused repellent. In orange for an additional color option.

Our premium safety cable comes with an infused repellent, making sure animals only bite once and a 100% stronger metal mesh protection than our 3,6mm safety cable.

- Rodent repellent + 3-layer protection
- 100% stronger mesh than the 3,6mm
- 10-year guarantee
- Professional installation cable
- Complicated installations
- 3,8mm thickness includes: our superior protection and a more stable insulation of plastic

100m | 150m | 250m | 500m | 800m

Safety Cable 3,6mm

3-Layer cable with metal protection. We offer a 3-year guarantee against animal bites and most garden tools.

The special net protection is designed to prevent breakage while still providing a perfect signal for those who want to deliver high-quality installations.

- 3-layer protection
- Metal mesh
- 3-year guarantee
- Professional installation cable
- 3,6mm thickness includes: a high-quality metal protection

100m | 150m | 250m | 500m | 800m

Standard Cable 3,4mm

The 3,4mm green standard cable is a prime quality cable that works on all robot mower installations.

The cable is insulated with soft plastic to protect the cable. The cable is flexible, so it can be used for complicated installations and is compatible with all cable machines.

- Available in sizes: 100 / 150 / 250 / 500 / 800 meters
- Thickness: 3,4 mm – perfect for all cable machines
- All cables are provided with clearly printed meter markings

500m | 800m

Standard Cable 3,4mm

Choose the best color for your installation. Try orange cable for variations, and black for UV-protection.

Overall, these two cables are duplicates of our green standard cable. The only difference is the color. The black cable comes with UV-Protection.

- Available in sizes: 500 / 800 meters
- Thickness: 3,4 mm – perfect for all cable machines
- All cables are provided with clearly printed meter markings
- Wooden spools

100m | 150m | 250m | 500m | 800m | 1000m

Basic Cable 2,7mm

Our 2.7mm green basic cable can be used for all robotic lawnmower installations. It is recommended for installations above ground.

The biggest cable spool (500m, 800m and 1000m) comes in high quality wood instead of plastic, to minimize breakage.

- Available in sizes: 100 / 150 / 250 / 500 / 800 / 1000 meters
- Thickness: 2,7mm with a more stable insulation than most other cable types
- All cables are provided with clearly printed meter markings

SKU: 90979796

HONDA Fuel-driven cable machine

PWM 600MH Cable Machine

Designed by professionals to optimize the work of robotic mower installers.

Lightweight and compact cable machine for professionals, with a small turning radius. The 600MH has a distance guide that gives access to every corner and provides better precision, reducing the installation time.

- Powerful 4-stroke Honda GXH50 Engine, 2,1 HP
- Installs 600 meters per hour
- Wire depth 4-6 cm underground
- Ergonomic handle
- Wire size up to 6 mm
- Heavy-duty blades for all underground obstacles

SKU: 90978896

Battery-driven cable machine

PWM 600MH-LI Cable Machine

The best battery-driven cable machine for robot mower installations.

This battery-driven cable machine ensures a clean cut in the ground and places the cable easily in the ground around any edge or obstacle.

- Brushless 80/82V Lithium-Ion battery electric motor
- Silent and sustainable installation
- Emission free operation
- Ergonomic handle
- Can take up to 70% steep slopes
- Heavy duty blades for all underground obstacles

Repair Kits

Repair any broken cable with this complete set of cable, plastic pegs and connectors.

You can also use the cable to include a smaller extra part of the garden to the total installation area. At the beginning of an installation or as an extension later on.

The Repair kits contain:

- **Small kit:** 5 meter (2,7mm) cable, 10 plastic pegs, 5 scotchlock
- **Medium kit:** 25 meter (2,7mm) cable, 10 plastic pegs, 5 scotchlock
- **Large kit:** 50 meter (2,7mm) cable, 10 plastic pegs, 5 scotchlock

1 pc SKU: 81939778
10 pcs SKU: 81939774

Choose where to cut

Robot ReDirect

Divide your lawn into areas and choose where your robot should run.

Robot ReDirect divides your lawn into several sections in which you can quickly and easily select or deselect mowing. You can leave out areas with e.g. toys or laundry while in use, and turn on to mow these areas later.

- Use 1 unit per area
- IP67 waterproof and frost resistant (-18 °C), so it can stay outside year after year.
- Screw it into the ground, and simply twist it to activate.
- Tested on Husqvarna, Ambrogio, STIHL, Robomow, Worx, Cup Cadet, AL-KO and other model robot mowers

Garages

YOUR ROBOT IS A MEMBER OF THE FAMILY

**Give it a house to keep it safe and sheltered all year round.
A personalized home that fits the garden.**

At Auto-Mow we offer a wide range of garages for robot mowers. In addition to keeping the robot sheltered from all kinds of weather, the garage also functions as a great feature in the garden.

Wooden garages made of fast growing wood, and our non-wooden garages of high quality aluminium.

The Cube

AM Hybrid Grass

AM Hybrid grass gives natural grass the opportunity to recover and grow through the mesh.

AM Hybrid grass gives natural grass the opportunity to recover. Use it on steep areas in the garden where the robot tends to slide down. Ideal for the docking station where the grass is worn away by the robot - perfect for places where the grass does not grow.

The Hybrid grass makes sure you do not have to worry about the robot getting stuck anywhere on the lawn, allowing the robot to cut the entire lawn all year round.

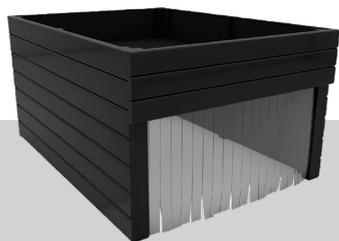

FEATURES:

- Protects the lawn
- Gives the robot a better grip
- Use it by the docking station
- Made of: Synthetic grass
- Dimensions: 80cm x 80cm
- Includes bio-pegs

Medium, Nature SKU: 38980295

Hidden compartment under the roof

Alpine Garage

The Alpine Garage from Auto-Mow is a garage for small and medium robots. It is made of high quality and sustainable wood.

Gain access to the robot and docking station from the opening in the roof. The garage fits in most gardens and can be painted by customers in any color. It is extremely easy to set up and can be installed within 10 minutes.

- UV and weather protection
- Storage space under the roof
- Easy access to the robot from the top
- 2-year warranty
- Colour: Nature

Door dimensions: Width: 53cm, Height: 30cm
Garage length: 64,7cm

Comes in two sizes and two colors

The Cube

The budget choice, that still provides the robot with the necessary protection.

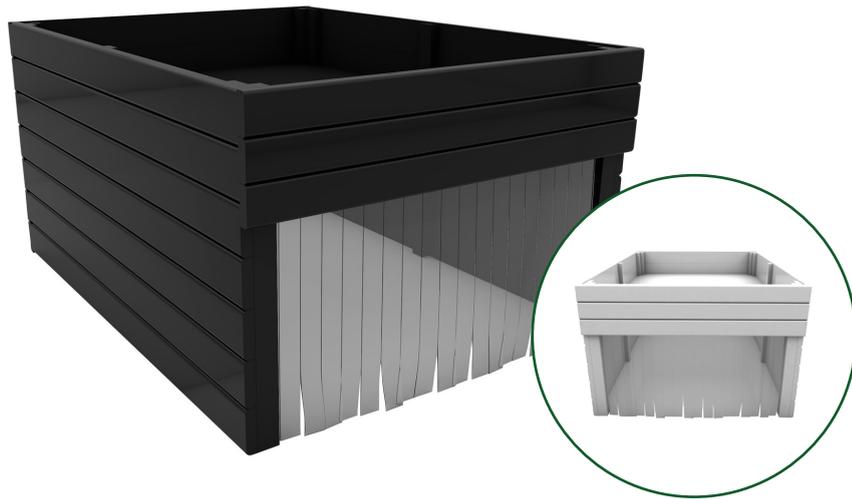

The cube protects the docking station and robot mower, which increase the lifespan of the robot for many years.

- Great airflow
- 2-year warranty
- Removable Curtains
- Access to the robot from the top
- Protects the robot all year round

Garage sizes:

- **Medium Cube** - Size of door: 56cm x 35cm, Garage length: 93cm
- **Large Cube** - Size of door: 65cm x 40cm, Garage length: 104cm

Black SKU: 38980199
White SKU: 38981098

Comes in two colours: black and white

2 in 1 Flowerpot Garage

Auto-Mow presents the first flowerpot garage on the market, that hides away your robot from plain sight.

You can plant flowers in the top compartment, just like a traditional flowerpot. The garage also protects the docking station and robot mower, which increases the robot's lifespan for many years.

- All wooden parts have a double protective coating
- 2-year warranty
- Protects the robot all year round

Door dimensions: Width: 67cm, Height: 40cm
Garage length: 104cm

SKU: 38874299

Fits small and medium robots

Wooden Shelter - wall mounted

Our new roof garage is perfect for those wanting to integrate the robot mower garage with the house or the shed.

The wooden shelter is easy to assemble and install. Both can be done within a few minutes. It is a simple solution to protect the robot from the sun and prolong its lifespan.

- Fits all residential robots
- Can be assembled within minutes
- Fast-growing wood, Asphalt roof
- Cost efficient

Dimensions: Width: 65cm, Height: 23cm, Depth: 53cm

BUILDING BRAND VALUE

BIGMOW - Sponsor Home

Auto-Mow presents the best home for your Bigmow, built with an extremely long-lasting material that protects against everything from footballs to burglars.

The BIGMOW Sponsor Home offers a garage with a unique design. The garage fits the BIGMOW docking station and offers a perfect surface area for sponsorship, which can be used for example to promote the robot installers company or to generate advertising revenue from different sponsors.

Promote your business with **BIGMOW Sponsor Home** - *Sponsor Home for football fields.*

FEATURES:

- Strong build
- Sponsorship options
- Made for the BIGMOW robot lawn mower
- Prolongs the lifespan and keeps the robot safe

Dimensions: 159cm x 150cm x 66cm

SKU: 38999998

SKU: 38989998

Compatible with the L400

Ambrogio L400

This garage is for the Ambrogio L400.

The Ambrogio L400 has a sharp but modern look and comes in a variation of colours. Custom colours available upon request.

- Strong build
- Big enough to house the Ambrogio L400
- Prolongs the lifespan and keeps the robot safe
- Can be customized
- Standard colours: Black and gold.

**COLOUR CUSTOMIZE
TO FIT ANY CLIENT**

SKU: 38969998

Flip it open to access the robot

Universal Garage

The Universal Garage is compatible with all robots mowing up to 5.000 m2.

The Universal garage is very simple to assemble and includes pegs to secure the garage to the ground.

The suns UV light often fades the colours and can damage the battery over time. The Universal garage gives excellent UV protection for the robot mower.

- No maintenance
- Tilt the top
- Installed in minutes
- 2-year warranty
- Pegs to attach the garage are included

Dimensions: Width: 70cm, Height: 46cm
Garage length: 82cm

Blades

At Auto-Mow we develop our blades with the highest concern for safety. The blades are made of stainless steel, with an extra hard coating, designed to minimize the chance of breakage if the blade hits a rock or hard branch during cutting.

Stainless steel's strength, resistance to corrosion and low maintenance makes it the ideal material for our blades. Furthermore, we appreciate its long lifespan and that the material is 100% recyclable.

Belrobotics (BIGMOW) Blades

Focus on high quality for a long-lasting performance from every blade.

Auto-Mow also increased the quality of the screws, to make them more resistant to abrasion. This will minimize the chance of blade breakage during longer cutting sessions.

- Best quality safety blades
- Safety screws included
- Fits: (BIGMOW) Belrobotics, ECHO and Parcmow

H 1mm

8 pcs

Bosch Blades

The Bosch robot blades come with screws made of hardened steel, to increase the amount of impact they can withstand.

The blades are made with new technology, designed to eliminate breakage if they hit a rock or a hard branch during cutting.

- Safety screws included
- Material: stainless steel

Installations and repairs

The main principles of robot lawnmower installations are the same no matter the garden. But the tools used for the installation, or repair, vary.

At Auto-Mow we continuously try to evolve and meet the requirements, by revolutionizing our product range. Supplying worldwide installers the best tools in the industry.

WE DEVELOP NEW PRODUCTS BASED ON EXPERIENCE - TO CREATE VALUE

AM Wire stripper 5-in-1

Regardless of the task, the 5-in-1 wirestripper will do the job. It is a must-have for our special 3-layer Premium Safety Cable

Use the wirestripper to strip off the outer plastic from the cable. The multi-function feature means that you only need one tool when installing cable, no matter the size of the cable.

FEATURES:

- Stripping
- Crimping
- Cutting
- Adjustable to fit any type and size of cable

SKU: 60503581

THE 5-IN-1 WIRE STRIPPER IS THE MOST PREFERRED TOOL OF OUR INSTALLERS!

SKU: 60509397

1 pc

AM Pro Tracker PLUS

AM Pro Tracker Plus is developed to make the search for cable breaks easy.

AM Pro Tracker Plus can locate wire breaks down to a depth of 2 meters, and is a must-have for any professional installer.

- Works for all cables
- Easy setup
- Customized display that improves useability
- Multiple track options
- Earth-Rod included
- USB Rechargeable
- The detected cable length can be up to 2 km

SKU: 60500197

1 pc

AM Pro Tracker

AM Pro Tracker can locate wire breaks up to 2 meter depth.

The AM Pro Tracker is easy to use, helping you find broken or damaged cable in just a few minutes.

- Detects the cable location in the underground, of the wall etc.
- Trace cable without signal interference
- The signal strength for transmitter and receiver is adjustable
- Capable of tracing cable breaks, such as single-core, 2-core, or multi-core cable
- The detected cable length can be up to 1 km

SKU: 60503597

1 pc

Basic Tracker

The Basic Cable Tracker works for cables above ground.

This tracker can locate up to 10 km of cable. Hold the tracker in close range to the wire to detect the cable break. The tracker can also be used if you dig up a buried cable.

We recommend using our Pro tracker for cables underground.

- Capable of tracing cable breaks, such as single-core, 2-core, or multi-core cable
- The detected cable length can be up to 10 km

AM Portable Heat Gun

Auto-Mow presents the best tool for any repair or installation of robot lawnmower cable.

This product has been designed to make repairs on boundary cable in any garden at any location. It is possible to do 30 repairs on one battery charge.

The heat gun runs on 18-volt power and the 4AH battery will provide you with a powerful heat blow. The max temperature is 550°C which gives the perfect heat needed for all heat shrink connectors.

PERFECT FOR ANY REPAIR

FEATURES:

- Cordless with lithium battery
- Repair over 30 boundary wires on one charge
- Used for heat shrink connectors
- Works for all robot mower cables
- Cooling system
- Battery: 4AH lithium battery
- Power: 18v DC
- Rated current: 15A
- Max temp: 550 °C
- Max airflow: 200L/min
- Runs per charge: 16,5 min

Pro Heat Shrink Kit

This kit contains heat shrink connectors and heat shrink tubes.

The two products together give the most secure underground connection of 2 boundary wires.

- For underground connections
- Perfect conductivity
- High level of glue
- Easy to shrink
- Strong connection

SKU: 53989924

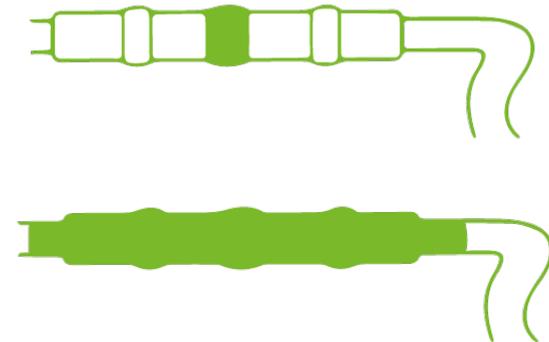

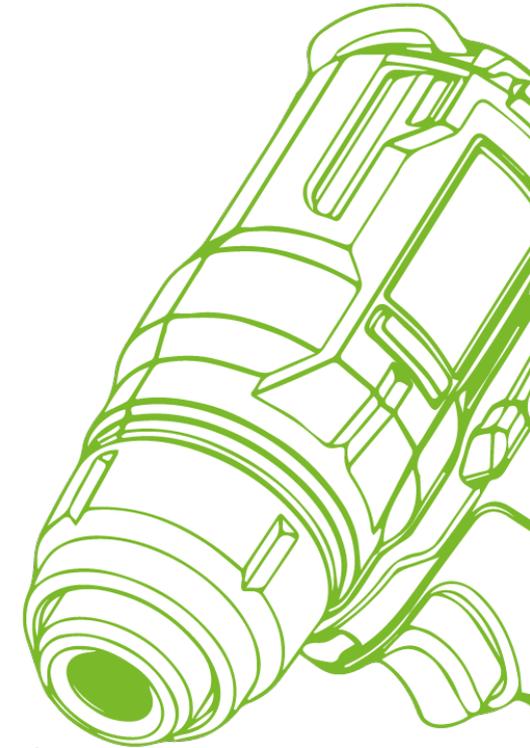

10 pcs

Heat Shrink Repair kit

Auto-Mow is proud to present our repair kit for shortened wires.

There is normally a gap between the two ends of cable that needs repairing after the damaged cable is removed. The gap can often be 5 to 10cm. The repair kit has a 10cm prolonged single connector that connects the wires together without the need for additional cable.

- 10 cm long
- Easy and simple repair
- Gives a better connection
- Saves time and installation material
- Professional repair for shortened wires
- Comes in packs of 10 pcs.

SKU: 53691698

100 pcs

Heat Shrink Connector

If you need a connector with a long lifespan, Auto-Mow recommends the heat shrink connector.

The heat shrink connector will protect the cable for many decades and will keep the cable 100% oxidation free. It is highly recommended for professional installations and repairs.

- Heat Shrink Connector with tin
- 100% waterproof
- Long-lasting connection
- Oxidation free

1,1mm - 3,1mm SKU: 53959720
 1,8mm - 4,6mm SKU: 53959722
 2,4mm - 6,4mm SKU: 53959723

100 pcs

Heat Shrink Tube

The heat shrink tube makes the connection strong, and can be used alone or together with the heat shrink connector.

For the best protection for any repair. You can also use the heat shrink tube around docking station connectors to make an even stronger connection protecting it from oxidation.

- High content of sealant
- Easy to shrink
- Solid connection
- Available in 3 sizes

Red SKU: 55693399
 Blue SKU: 55690699

100 pcs

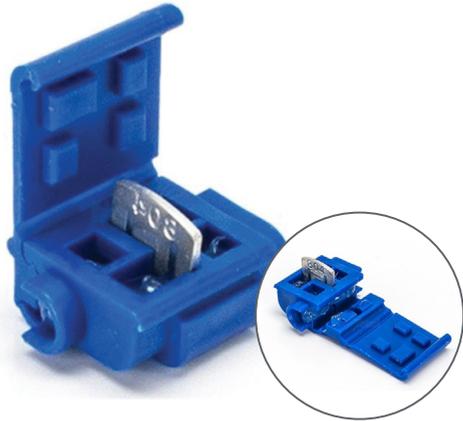

Crimping Connector

Crimp the connector before heating it to seal it and create a safe installation.

Crimping connectors are one of the best connectivity solutions for underground installation or repairs. We recommend using the heat shrink tube around the connector for an even stronger connection.

- 100% Waterproof
- Great conductivity
- Red: 0,5 mm² - 1,5 mm²
- Blue: 1,5 mm² - 2,5 mm²

Pro Guide Cable Connector

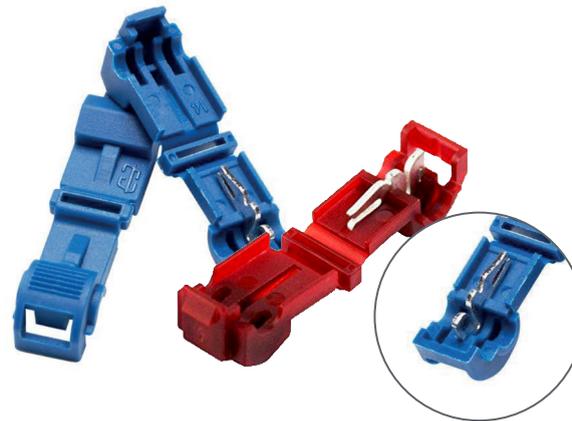

Avoid cutting the boundary cable by using a guide cable connector.

The Pro Guide Cable Connector is the preferred connector for all Automower-installers. It offers a 100% waterproof connection for underground cable.

You can use the Pro Guide Cable Connector to easily connect the guidewire to the perimeter cable, without cutting the cable.

- 100% waterproof
- Resistant to heat and cold with a polypropylene insulation
- Used to tap into a wirecircuit without cutting or stripping the wire

Scotchlock 314

The most used connector for underground installations.

This connector is used for many purposes but is mostly used for connecting the boundary cable underground.

- Provides an insulated connection for 2 to 3 wires
- Use this product with a mineral oil lubricant to create a tight seal that is resistant to moisture
- The insulated connector is designed to work with 22 to 14 AWG solid/stranded wires
- Corrosion resistance is provided by the tin plating that is constructed from high-quality brass for good conductivity
- Suitable for use at temperatures up to 105°C (221°F)

Biodegradable Pegs

Auto-Mow presents our ECO-Friendly pegs for all Robot mower installations.

Auto-Mow Biodegradable Pegs are the same high-quality as our regular plastic pegs. Study shows that 90% of all installers leave boundary cable in the ground, reinstalling a new cable in the same garden. These Biodegradable Pegs will make it easier to remove old cable and leave a clean installation, with only 1 cable in the ground over time.

TAKE A STAND - MAKE A DIFFERENCE - DON'T LEAVE A MARK

FEATURES:

- Green like the grass, and therefore easier to hide
- They decompose after 1-2 years and become compost
- Approved by EU regulations
- 100 Pcs
- A better solution for the environment

SKU: 40690124

SKU: 40690126

Plastic Pegs

8,5cm - Use to install boundary cable, or to sell at a garden shop.

- High-quality plastic
- Low cost
- 100 pcs per bag

SKU: 40690125

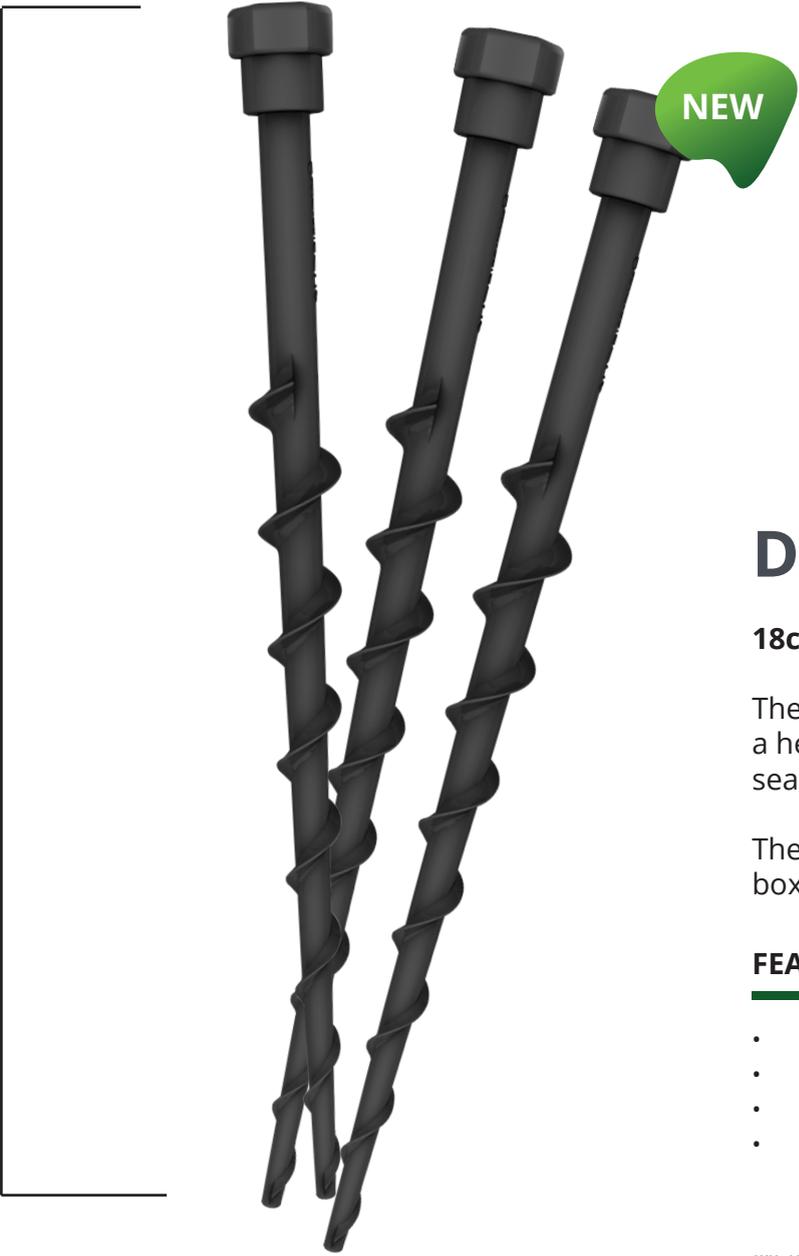

100 pcs

Extreme Plastic Pegs

These extreme plastic pegs are used for boundary cable installations and for other gardening purposes.

We offer our new and improved pegs with anchors on the edges so they will have a stronger grip in the ground.

- High-quality plastic
- Low cost
- 100 pcs per bag

18cm

NEW

Docking Station Pegs

18cm pegs - Used to secure the docking station into the ground.

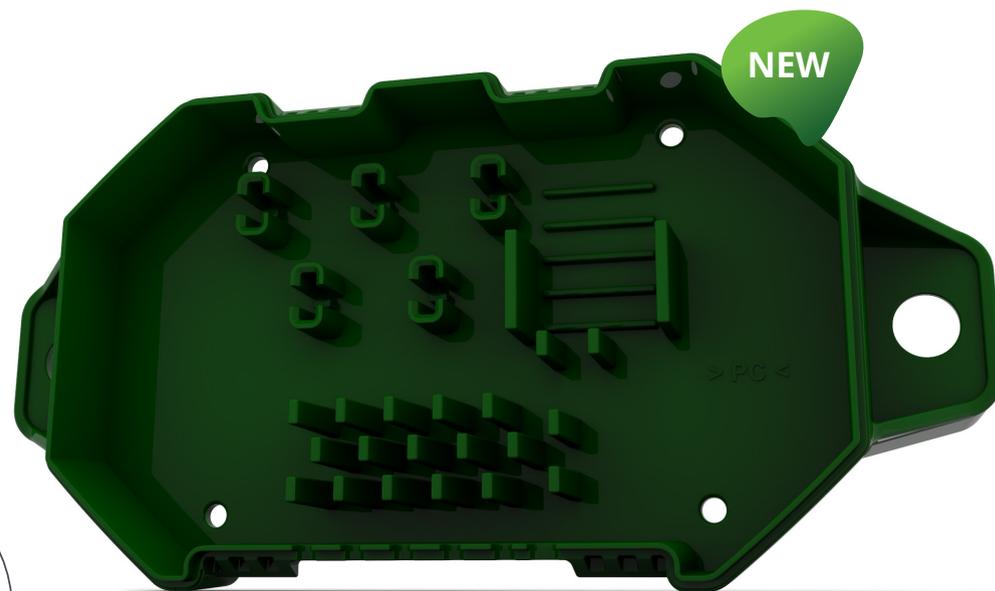

The pegs are extremely strong and made to last. In the package we have included a hex drill that allows you to screw the pegs into the ground even in the dry season when the ground is hard.

The pegs can also be used to fasten other objects into the ground e.g. our winter box.

FEATURES:

- Easy to screw into the ground
- Strong plastic
- Works for Automower, Gardena, Ambrogio, Stiga and many other brands
- Contains: 6 pegs and 1 hex drill to securely screw the peg into the ground and secure the docking station

SKU: 41550126

Winter Box

The Winter Box is used when removing the docking station during winter.

The box is a 100% waterproof sealed box and can accommodate up to 5 cables with docking station connectors attached, and 1 adaptor cable. The box creates a perfect guard for the boundary cable and the connectors, to avoid moisture in the winter. Protecting the installation over winter, will prolong the lifespan of the installation, docking station and robot.

SKU: 46504297

WATERPROOF PROTECTION ALL YEAR!

FEATURES:

- IP67 waterproof
- Suitable for all robot brands
- Easy to install
- Fasten to the ground
- Size: Length: 21cm, Width: 10cm, Height: 8,6cm
- Contains: 1 waterproof box and 2 x 18cm pegs
