** For use on all connected line models in association with deviation flaps. Designed for driving ranges. Use of these cutting discs will decrease the mowing capacity of all mowers.*

KB – Cutting discs-0004 – overview

Standard Cutting disc Driving Range (V4 as from 2025)

This cutting disc, available as from 2025 will be the standard by order and can be ordered as a full disc assembly under the number **1pc YB-062-00085 3pc YB-062-00097 5pc YB-062-00098**

All part number from 2-15 remain the same as for the V2 version, only part number 1 is changed to a more thicker and more open anti-friction disk.

1: YB-000-00261 Anti friction disc

*This part is fully compatible to install on the V2 version as a spare part.

This part is **not possible to install on the classic line cutting discs.
